📁 PROJECTS

Company Vulnerabilities ⧉
I used the "OpenVas" tool to scan for vulnerabilities, discovering potential brute force attacks, outdated software, and specific port vulnerabilities. This practical experience enhanced my grasp of cybersecurity challenges and solutions.

🧠 SKILLS

- Wireshark | Linux | Python | OpenVas

💼 PROFESSIONAL EXPERIENCE

Monfort Renaissance Inc
Addictions Counselor
2019 – 2023 | Ottawa, Canada
Addictions Counselor

- Conducted personalized assessments and led group sessions, enhancing communication and teamwork within interdisciplinary teams.
- Applied motivational techniques, designed proactive strategies, and provided crisis intervention.
- Prioritized confidentiality and data privacy, fostering positive change holistically.
- Adapted counseling techniques for diverse individuals, reflecting a global perspective.

📇 PROFILE

Seeking a transition into cybersecurity, I offer transferable skills from my background as an addictions counselor. Proficient in problem-solving, communication, and analysis, I am adept at identifying vulnerabilities and implementing preventive measures. My experience in fostering trust and promoting education adds a unique dimension to cybersecurity. Eager to contribute a fresh perspective and holistic approach to digital safety.
